PRD – Insurance Backend Cover Amount Validation

Health | Super Top-Up | Personal Accident | Hospital Cash

Scope: Backend Validation Only

1. Objective

Define backend validation for coverAmount across all four BoltPe insurance products. The backend must validate the received amount against the configured allowed values for the selected insuranceType. Hospital Cash additionally requires validation of noOfDays.

2. Validation Summary

Insurance Type	Field	Allowed Values
HEALTH	coverAmount	₹50K, ₹75K, ₹5L, ₹7L, ₹10L, ₹15L, ₹20L, ₹25L, ₹30L, ₹35L, ₹40L, ₹45L, ₹50L, ₹75L, ₹1Cr, ₹2Cr, ₹3Cr, ₹4Cr, ₹5Cr
SUPER_TOP_UP	coverAmount	₹5L, ₹10L, ₹15L, ₹20L, ₹25L, ₹50L, ₹1Cr, ₹3Cr
PERSONAL_ACCIDENT	coverAmount	₹10L, ₹15L, ₹20L, ₹25L, ₹30L, ₹35L, ₹50L, ₹75L, ₹1Cr, ₹2Cr, ₹3Cr, ₹4Cr, ₹5Cr
HOSPITAL_CASH	coverAmount	₹500, ₹1,000, ₹2,000, ₹2,500, ₹3,000, ₹5,000
HOSPITAL_CASH	noOfDays	30, 60, 90, 180

3. Health Insurance – Cover Amount

The backend must accept only the following configured coverAmount values:

API Value	Amount
50000	₹50,000
75000	₹75,000
500000	₹5 Lakh
700000	₹7 Lakh
1000000	₹10 Lakh
1500000	₹15 Lakh
2000000	₹20 Lakh
2500000	₹25 Lakh
3000000	₹30 Lakh
3500000	₹35 Lakh
4000000	₹40 Lakh
4500000	₹45 Lakh
5000000	₹50 Lakh
7500000	₹75 Lakh
10000000	₹1 Crore
20000000	₹2 Crore
30000000	₹3 Crore
40000000	₹4 Crore

50000000	₹5 Crore

Mandatory validation: coverAmount is required.

Invalid value error: Invalid coverAmount for HEALTH insurance

4. Super Top-Up Insurance – Cover Amount

The backend must accept only the following configured coverAmount values:

API Value	Amount
500000	₹5 Lakh
1000000	₹10 Lakh
1500000	₹15 Lakh
2000000	₹20 Lakh
2500000	₹25 Lakh
5000000	₹50 Lakh
10000000	₹1 Crore
30000000	₹3 Crore

Mandatory validation: coverAmount is required.

Invalid value error: Invalid coverAmount for SUPER_TOP_UP insurance

5. Personal Accident Insurance – Cover Amount

The backend must accept only the following configured coverAmount values:

API Value	Amount
1000000	₹10 Lakh
1500000	₹15 Lakh
2000000	₹20 Lakh
2500000	₹25 Lakh
3000000	₹30 Lakh
3500000	₹35 Lakh
5000000	₹50 Lakh
7500000	₹75 Lakh
10000000	₹1 Crore
20000000	₹2 Crore
30000000	₹3 Crore
40000000	₹4 Crore
50000000	₹5 Crore

Mandatory validation: coverAmount is required.

Invalid value error: Invalid coverAmount for PERSONAL_ACCIDENT insurance

6. Hospital Cash Insurance – Cover Amount

The backend must accept only the following configured coverAmount values:

API Value	Amount
500	₹500
1000	₹1,000
2000	₹2,000
2500	₹2,500
3000	₹3,000
5000	₹5,000

Mandatory validation: coverAmount is required.

Invalid value error: Invalid coverAmount for HOSPITAL_CASH insurance

7. Hospital Cash – Number of Days

For HOSPITAL_CASH, noOfDays is mandatory and must be one of the configured values below.

noOfDays	Result
30	Valid
60	Valid
90	Valid
180	Valid
Any other value	Invalid

Missing value error: noOfDays is required

Invalid value error: noOfDays must be one of: 30, 60, 90, 180

8. Common Backend Validation Rules

- coverAmount is mandatory for all four insurance products.
- coverAmount must be validated against the allowed list for the selected insuranceType.
- An amount valid for one insurance product must not automatically be treated as valid for another insurance product.
- Zero and negative cover amounts must be rejected.
- Decimal cover amounts must be rejected.
- Alphabetic, alphanumeric, and special-character values must not be accepted as valid cover amounts.
- Any positive amount not present in the configured list for that insurance type must be rejected.
- If validation fails, the downstream insurance provider API must not be called.
- For HOSPITAL_CASH, noOfDays must additionally be one of 30, 60, 90, or 180.

9. Example Validation Scenarios

Insurance Type	Input	Expected Result
HEALTH	coverAmount = 1000000	Valid – ₹10 Lakh
HEALTH	coverAmount = 1200000	Invalid
SUPER_TOP_UP	coverAmount = 2500000	Valid – ₹25 Lakh
SUPER_TOP_UP	coverAmount = 3000000	Invalid
PERSONAL_ACCIDENT	coverAmount = 3000000	Valid – ₹30 Lakh
PERSONAL_ACCIDENT	coverAmount = 4000000	Invalid
HOSPITAL_CASH	coverAmount = 2500, noOfDays = 90	Valid

HOSPITAL_CASH	coverAmount = 1500, noOfDays = 90	Invalid coverAmount
HOSPITAL_CASH	coverAmount = 2500, noOfDays = 120	Invalid noOfDays

10. Final Backend Rules

```
HEALTH coverAmount ∈ {50000, 75000, 500000, 700000, 1000000, 1500000, 2000000, 2500000, 3000000, 3500000, 4000000, 4500000, 5000000, 7500000, 10000000, 20000000, 30000000, 40000000, 50000000}

SUPER_TOP_UP coverAmount ∈ {500000, 1000000, 1500000, 2000000, 2500000, 5000000, 10000000, 30000000}

PERSONAL_ACCIDENT coverAmount ∈ {1000000, 1500000, 2000000, 2500000, 3000000, 3500000, 5000000, 7500000, 10000000, 20000000, 30000000, 40000000, 50000000}

HOSPITAL_CASH coverAmount ∈ {500, 1000, 2000, 2500, 3000, 5000}

HOSPITAL_CASH noOfDays ∈ {30, 60, 90, 180}
```

11. Acceptance Criteria

- Backend accepts only configured coverAmount values for each insurance type.
- Backend rejects missing, null, zero, negative, decimal, unsupported, or invalid-type coverAmount values.
- Hospital Cash accepts only 30, 60, 90, or 180 for noOfDays.
- Invalid requests are rejected before downstream provider API invocation.

12. Proposal Form – Cover Amount Validation

The following coverAmount validation applies specifically to the Proposal Form for all four insurance products. These proposal-form values are additional requirements and do not modify or remove the existing coverAmount validation content documented above.

12.1 Proposal Form Allowed Cover Amounts

Insurance Type	Allowed Proposal Form coverAmount Values
HEALTH	50000, 75000, 200000, 300000, 400000, 500000, 700000, 1000000, 1500000, 2000000, 2500000, 3000000, 3500000, 4000000, 4500000, 5000000, 7500000, 10000000, 20000000, 30000000, 40000000, 50000000
SUPER_TOP_UP	200000, 300000, 400000, 500000, 1000000, 1500000, 2000000, 2500000, 5000000, 10000000, 30000000
PERSONAL_ACCIDENT	1000000, 1500000, 2000000, 2500000, 3000000, 3500000, 5000000, 7500000, 10000000, 20000000, 30000000, 40000000, 50000000
HOSPITAL_CASH	1000000, 1500000, 2000000, 2500000, 3000000, 3500000, 5000000, 7500000, 10000000, 20000000, 30000000, 40000000, 50000000

12.2 Proposal Form Backend Validation Rules

- coverAmount is mandatory for HEALTH, SUPER_TOP_UP, PERSONAL_ACCIDENT, and HOSPITAL_CASH proposal forms.
- The backend must validate coverAmount against the allowed Proposal Form list for the selected insuranceType.
- Missing or null coverAmount must be rejected with: coverAmount is required.
- Zero, negative, decimal, alphabetic, alphanumeric, special-character, and unsupported positive values must be rejected.
- An amount valid for one insurance type must not automatically be accepted for another insurance type.
- Invalid coverAmount requests must be rejected before the downstream Policy Planner/provider API is called.

12.3 Proposal Form Error Messages

Condition	Insurance Type	Backend Message
Missing / null	All four products	coverAmount is required
Invalid / unsupported	HEALTH	Invalid coverAmount for HEALTH insurance
Invalid / unsupported	SUPER_TOP_UP	Invalid coverAmount for SUPER_TOP_UP insurance
Invalid / unsupported	PERSONAL_ACCIDENT	Invalid coverAmount for PERSONAL_ACCIDENT insurance
Invalid / unsupported	HOSPITAL_CASH	Invalid coverAmount for HOSPITAL_CASH insurance

12.4 Proposal Form Acceptance Criteria

- HEALTH proposal form accepts only the configured HEALTH proposal coverAmount values listed in Section 12.1.
- SUPER_TOP_UP proposal form accepts only the configured SUPER_TOP_UP proposal coverAmount values listed in Section 12.1.
- PERSONAL_ACCIDENT proposal form accepts only the configured PERSONAL_ACCIDENT proposal coverAmount values listed in Section 12.1.
- HOSPITAL_CASH proposal form accepts only the configured HOSPITAL_CASH proposal coverAmount values listed in Section 12.1.

- Invalid proposal coverAmount values are rejected before downstream provider invocation.
- Existing document sections and their original validation values remain unchanged.
